Special diet cakes

A little something about our bakery first. According to law we are not allowed to call any of our products gluten free, because we bake in a bakery where we use wheat. We can however refer to items as "flourless". All cakes are prepared in a bakery where we use peanuts, tree nuts, soy, wheat, eggs & dairy products.

KINDLY TAKE NOTE THAT BECAUSE WE HAVE A VEGAN CAKE ON OUR CAKE PRICE LIST, DOES NOT MEAN WE ARE A VEGAN BAKERY OR RESTAURANT.

3. Polenta, lemon & almond cake
Deliciously different with a very interesting texture. It is not so sweet and made mainly out of ground almonds and polenta. The lemon taste is refreshingly prominent and the only thing this cake needs is a dollop of fresh cream when serving. No decorations or trimmings, the cake is simply dusted with icing sugar on top.
*Fresh cream not provided with the cake.
